Student Observance of Holidays

Each student is expected to follow the University calendar in observance of designated holidays. In agency situations where a student observance of a University holiday would pose a hardship or problem in the organization’s program, the student may negotiate a compensatory time arrangement satisfactory to all parties: student, field instructor, administrative officer, and advisor. A statement of this change or agreement should be placed in the student’s file. Students are not required to make up agency holidays that are not observed by the School.

Student’s Satisfactory Completion of Field Requirements

Students must have a field learning plan/time sheet and an evaluation/time sheet on file to indicate they have satisfactorily completed field learning requirements. Students need to complete the required number of hours for each term in field placement.
