Allegheny County Jail – Re-Entry

Individual sessions; groups; assessments; case management.

Psychoeducation groups conducted on the Re-Entry housing unit; individual therapy with a case load of approximately five clients.

Drug and alcohol, mental health, men aged 18 years and older.

Internship provides opportunity to tailor groups according to the needs the housing unit. For example, topics such as relationships, anger management, and grief and loss have been provided. Upon entry into the program, a psychosocial assessment is conducted to determine a service plan. Case management duties include medical referrals, discharge planning, and progress through service plan.
