Student Internship Description

CEA is currently accepting applications for social work student interns in its Afterschool Partial and Supplemental Programs. Interns will learn and be involved in the following aspects of its Therapeutic Support & Wellness Program:

- Intensive Psycho-Social Assessments (conducted primarily in potential participant’s home)
- Profile development
- Treatment Plan Development
- Conducting Groups, Individual & Family therapy
- Treatment team meetings
- Team meetings with the psychiatrist (partial only)
- Documentation

Program Background
Community Empowerment Association, CEA is a community based non-profit organization located in Homewood. CEA’s Therapeutic Support and Wellness Program offers hope and healing for families and children in a framework of cultural competency, recovery and resilience. CEA is committed to providing a quality, holistic service designed to assist in reducing stress and fostering recovery. CEA understands the unique and important role of cultural awareness and healing within the African American community as well as structural barriers that may inhibit healing. The goal of the Therapeutic Support and Wellness Program is to help children and families who are challenged emotionally develop the skills necessary for greater success at home, school and in the community. CEA achieves this goal by offering community-based, family centered, culturally specific strengths-based mental health services.
