The Internship Program at Family Services of Western PA

Family Services of Western PA is comprised of over 40 programs in six locations in Allegheny and Westmoreland Counties. Internship opportunities are available in about 20 programs devoted to behavioral health, intellectual disabilities, and individual capacity building within a community context. A list of specific programs and a description of the internship position is available on the agency web site at www.fswp.org. Applicants are encouraged to review the possible openings and submit a resume and letter of interest. The letter of interest should describe the school’s requirements for internships so that this information will be available to the program decision-maker. Managers make selections on an ongoing basis throughout the year based on program capacity; each program has different requirements for interns, including the number of openings available. Applicant referrals to program decision-makers are coordinated through the Intern Office.
