If you are looking for employment in the human services field, We have a great opportunity waiting for you!

Main Line Rehabilitation Associates
is accepting resumes for

**Therapeutic Specialists**

As a NeuroCognitive Specialist at Main Line, you will work one on one with individuals with neurological impairments, such as brain injuries or autism. All NeuroCognitive services are provided in the home, school, community or place of work of the individuals we serve.

A NeuroCognitive Specialist facilitates increased independence for each individual by teaching skills and strategies for areas such as planning, organization, communication, budgeting, time management, social skills, study skills, job readiness and much more.

You must have: a Bachelor’s Degree in a Human Services field, experience working with individuals who have disabilities, a reliable car, flexibility, and a willingness to learn.

A leader in the field of Cognitive Rehabilitation since 1986, we offer excellent benefits, training based on clinical best practices, stability, and potential for growth and leadership within the organization.
