

Systems Integration Specialist

We are seeking an ambitious and articulate Systems Integration Specialist to provide training/TA support and quality assurance as it relates to the implementation of the Department of Human Services (DHS) Common Assessment. The ideal incumbent will have the necessary skills to develop and implement strategies designed to enhance meaningful use of assessments and engagement practices at the family, program and system levels, including the utilization of a trauma-informed approach as it relates to DHS clientele and staff. Additionally, the Systems Integration Specialist will strive to encourage and improve collaboration and communication among DHS offices and providers in order to maximize efficacy of said strategies and promote systems integration. Additional responsibilities include:

- * Developing and testing strategies to support system transformation.
- * Assisting with development and implementation of a plan to incorporate a trauma-informed approach related to the Common Assessments and other DHS practices.
- * Supporting the implementation of the CANS Comprehensive, ANSA and FAST across DHS, system partners and community members in Allegheny County.
- * Providing on-going training and technical assistance regarding the CANS, ANSA and FAST to providers and internal DHS staff.
- * Assisting in the coordination and implementation of cross-system and DHS-wide training initiatives as identified.
- * Assisting with the development and implementation of a continuous quality improvement plan with the implementation of CANS, ANSA and FAST across DHS and its contracted providers.
- * Submitting quarterly and annual reports as needed for the various initiatives taking place within the Executive Office.
- * Collaborating with DARE on various quality assurance/evaluation projects as identified.

Master's/Bachelor's degree from an accredited college/university in human services or related field, with at least 1/3-5 years' experience working in the human services field. Incumbent should have knowledge of program evaluation techniques, sound data collection practices and a basic understanding of statistical analysis; effective interpersonal skills, both oral and written, as well as proficiency in Microsoft Office software (PowerPoint, Word and Excel). Experienced trainers and/or familiarity with the CANS is preferred. Strong presentation skills, the ability to train and communicate with multiple and diverse audiences and experience developing curriculum and training objectives are needed to be successful in this job. Must be able to travel locally, via public transportation or have a valid driver's license and access to a reliable vehicle.

Salary range: \$45,000-\$65,000 plus comprehensive benefits package!
