

Squirrel Hill Health Center (SHHC), a dynamic and growing Federally Qualified Health Center in Pittsburgh, PA, is seeking a full time Outpatient Therapist LCSW/LPC and a Behavioral Health Coordinator at our growing multi-site practice with locations in Squirrel Hill and Brentwood. The practice provides outpatient primary care for all ages, OB/GYN care, behavioral health, and dental services. Please visit Careers on our website to learn more about these

opportunities and to begin the applicant process: <https://squirrelhillhealthcenter.org/>

**Outpatient Therapist:**

The Outpatient Therapist will work as a member of the interdisciplinary primary care/mental health team to evaluate, treat and assist patients in overcoming mental health, social/emotional, and economic barriers that prevent optimal health and well-being. As a clinical specialist, the Outpatient Therapist will work with the staff Psychiatrist to assess and provide brief/intermittent therapeutic interventions for patients who have co-morbid mental health and substance use issues, adhering to practice standards as well as regulatory standards. The Outpatient Therapist will connect patients who require ongoing clinical services beyond the scope of the Squirrel Hill Health Center to appropriate agencies, coordinating all aspects to ensure full compliance with mental health laws and confidentiality. The Outpatient Therapist will provide patient, staff, and community and staff education seminars.

**Qualifications:**

- LCSW or LPC with a minimum of two years social work experience in community health care environment.
- Licensed and credentialed by local behavioral health insurance companies.
- Experience in mental health and substance abuse evaluations and treatment required.
- Demonstrated ability to work both independently and in a team.
- Basic computer skills and ability to work in EHR required.
- Knowledge of Spanish or Nepali a plus.
- Desire to serve underserved population required.

**Behavioral Health Coordinator:**

The Behavioral Health Coordinator will provide direct support to both staff and patients to ensure that all patients in need of such services receive appropriate integrated behavioral health care. The Behavioral Health Coordinator will serve as the liaison among patients, their families, the Behavioral Health team, other staff members, and in advocating for patients and connecting to needed resources beyond Squirrel Hill Health Center.

**Qualifications:**

- MSW from accredited program or Licensure as an RN in Pennsylvania.
- Excellent organization skills and ability to deal effectively with the public.
- Excellent computer, medical terminology, and EHR skills.
- Must be committed to serving low income and underserved populations.
- Knowledge of a second language, Spanish or Nepali preferred.
