

## **PHP Mental Health Therapist**

### **Position Summary:**

The PHP (Partial Hospitalization Program) Mental Health Therapist (MHT) acts as the lead clinician for a fast paced clinical treatment team which serves the needs of children and adolescents who are significantly impacted by acute psychiatric conditions. The MHT is responsible for developing treatment plans, assessing the safety of PHP clients, and providing treatment services which may include: clinical assessment and diagnosis; individual therapy; family therapy; group therapy; and crisis diversion and de-escalation. As the lead clinician, the MHT plans treatment for PHP clients from admission to discharge.

### **QUALIFICATIONS:**

1. Minimum of a Master's degree in Counseling, Social Work, Psychology or other clinical mental health field and LSW required.
2. At least 3 years' experience in working with children and adolescents, families, family structure or family therapy either in a partial hospital, residential, group or individual setting preferred.
3. Able to learn and adapt to individual family's culture and be flexible to meet their needs.
4. Ability to lead, motivate and coach others in a fast-paced, family-focused environment
5. Must complete and pass agency Crisis/Physical Intervention training.
6. Experience working with an Electronic Medical Records (EMR) system
7. Proficient in Microsoft Office and use of e-mail
8. Valid driver's license and acceptable driving record.
9. Eligible for Pennsylvania State Police clearance, Pennsylvania Child Abuse History clearance, and FBI clearance.
